WORK EXPERIENCE

Full-Stack Web Developer — 2024 - Present
Alifbee Company | Istanbul, Turkey
- Leading full-stack development efforts, utilizing React, Django, and Laravel.
- Enhancing existing applications and developing new features to improve user experience and performance.

Full-Stack Web Developer — 2023 - Present
Freelance
- Successfully delivered full-stack web development projects, focusing on both frontend and backend technologies.
- Collaborated with clients to design and implement customized web solutions.

Back-End Web Developer — 2023 - 2024
Alifbee Company | Istanbul, Turkey
- Developed and maintained backend services using Django and PHP Laravel.
- Optimized database queries and backend processes to ensure high performance and scalability.

Front-End Web Developer — 2022 - 2023
Alifbee Company | Istanbul, Turkey
- Created dynamic and responsive user interfaces with React and modern frontend frameworks.
- Worked closely with design teams to translate UI/UX designs into functional, visually appealing websites.

PROJECTS

DICOM Web Viewer
- Created a web-based viewer for medical imaging data in the DICOM format.
- Focused on optimizing performance and ensuring cross-browser compatibility.
- Collaborated with medical professionals to refine the user interface for practical use in clinical settings.

Alifbee Platform
- Led full-stack development for an educational platform, handling both backend (Django) and frontend (React) aspects.
- Focused on scalability, performance, and delivering a user-friendly interface for a large user base.

CRM System
- Developed a customer relationship management system to streamline business processes.
- Implemented backend services using PHP Laravel and developed the user interface with React and Blade.
- Enhanced data handling and improved the overall user experience with a responsive design.
